

GI #400 Cleaner

APPLICATION: Guardian-IPCO #400 is an excellent all purpose cleaner. It is a synergistic blend of phosphates, organic solvents, surfactants, and wetting agents. This detergent removes oils, greases, pipe dope and other particulate matter. It may be used as cleaner for the start-up of new systems or as an on-line cleaner for systems where foaming is not a consideration.

BENEFITS: **WILL NOT HARM METAL SURFACES.**
NON-HAZARDOUS, NON-TOXIC PRODUCT.
COMPLETELY DISSOLVES IN WATER WITHOUT LEAVING A RESIDUE.

PHYSICAL PROPERTIES: Physical State: Clear liquid
Density: 8.76 lbs./gal.
pH: 11.0 - 11.5
Solubility: Complete in water

FEED RATES: Average 2 fluid ounces per gallon of water for pre-operational cleaning of new systems.

DOSAGES: Dosage will depend upon the severity of fouling. Consult your Guardian-IPCO representative for specific dosages.

TESTING & CONTROL: During flushing, system will be free of cleaner when water contains zero phosphate.

HANDLING & STORAGE: Read label completely before use. See label for first aid instructions. Keep containers closed when not in use. Store containers in an area free of temperature extremes.

PACKAGING: Available in 5, 15, 30 and 55 gallon plastic containers.

SHIPPING: Product is shipped F.O.B. Birmingham, AL unless otherwise specified.
